Dear Howard,

The four reviews I've noted on Garrow concentrated on the "Mala" Lina or like The Star News said it "proved" R.F.K. was "responsible" with J.F.K.! Garrow praises The F.B.I. with faint damns.

The S. Evening Post even ran an article justifying what The F.B.I. did to Jean Seberg. The "Clark" in Regan's Cabinet is the guy Hoover wanted to replace King with!

The King case. Ray, in my view, was part of the conspiracy and since he always lies, what credence can one give him? A high level conspiracy covered it up but a relatively low level conspiracy may have killed King.

Even when I [illegible] went to record in Florida there was talk of "killing" King and on the basis of the H.S.C.A. "logic", hundreds like quietly - a minimum figure! - since Ray copped have "freed" of the "deal".

Could there be any links between the Carr coming murder of Jerry Paul Spica and Memphis? The Ray stabbing and Memphis?

Instead of legal authorities, Harold Weisberg was brought featured and offered as an assassination "buff" to charge that I was "totally amoral." Weisberg had previously stated that he was working for The F.B.I., although that was omitted by Newsweek."

So what Lane in his "Konkokation" from Jonestown, The Strongest Poison.

It's not only this kind of villainous lie but the absence of any book detailing the people, events and perspective of that time which could make a memoir both fascinating and richly commemorated. It was tragic and yet hilarious, also.

One can note the re-cycling and theories in Freed's The Spymaster to catch the "moral." To the Bids it's all new stuff.

A girl who knew nothing of my interest in the subject that made was "reading The Express of Dallas, Fairness, America. Queen's has copies but it was banned in America!"

They declare this stuff and the failure of The D.J. to re-open the case gave credence to the nuts.

Sincerely,

Dear Harold,

Alien Research
P.O. Box 1107
Aptos
Calif., 95003

is selling "Organized Crime New Orleans" Box #35 used. They might buy copies or Penn could mention it in T.C.I.

Commercially, J.F.K. is much stronger than M.L.K.!

None of King books sold. Lane/Gregory deal dull through!

Queen's may get do a J.F.K. symposium in 9 months.

Big Crowd for a J.F.K. lecture there.

Questions on Gemstone Files, Tarbitt "Document", Fakenews America etc. Kids aka sharp but disinformation gets the "responsible" either turned off by disbelief aka paranoid or belief.

Dodd's letter is great.

I hear the F.B.I. analysis of acoustic evidence was completely invalid.

Goetz claims D.A. edited out references to J.F.K. assassination on Marcello tapes at his trial.

Could this be true?

Sincerely,
